

WHEEL-N-DEALS

August

5 Terry Wheeler

This is Terry's second appearance to our club this year, and you are in for a real treat. Terry invented "outside the box" thinking in square dance terms. She can weave dance moves you would never think possible; create wheels off hubs and interweave the spokes like an artisan interlacing the threads of woven cloth. If you have never danced to Terry, then you must experience her at least once; and if you have danced to Terry before, then I'm sure we'll see you on the floor with a smile on your face and your partner by your side!
